ABOUT ME

I am a computer science student passionate about technology and software development. I am proactive and a team player person, currently working with Frontend technologies. I enjoy learning new things all the time to expand my knowledge in problem solving using different technologies.

EDUCATION

Platzi bootcamp - 2021

Bootcamp created for premium subscribers of Platzi's online academy. This study program covered Javascript, HTML, CSS, React for frontend development and Node, Express, MongoDB and PostgreSQL for backend development among other technologies.

42 school - 2020

International computer science school

PROJECTS EXPERIENCE

PLATZI E-COMMERCE

as a final project of the Platzi bootcamp I created together with a team of 6 people an E-commerce app. we divided the tasks of the team and I participated in the group in charge of creating the user interface with the frontend team. the whole project was built using React, Redux, Node.js, Express, MongoDB and JWT Auth.

MY PROJECTS

you can find all my projects and the technologies I use on my github repository: <https://github.com/ElDev1>
